Application and Agreement

AFA Exotic Bird Registry

The purpose of the AFA Exotic Bird Registry is to provide a central management and contact point for bird leg bands and/or microchip numbers. Your personal contact information will never be shared with persons or organizations requesting information about your bird. Instead, you will be contacted and given information about the person requesting information on your bird, and you can choose whether to contact them or not.

Signing this agreement releases the AFA from any damages or legal issues involving the storage of your personal and pet bird data. Rest assured, the AFA will take every step possible to protect your information. No personal or registry information will ever be stored on the internet.
